ROADS TO REVOLUTION: BUILDING FEMINIST TRANSNATIONAL MOVEMENTS IN THE ERA OF #METOO

"Through the narratives of feminist activists in Iran, Tunisia, and India, this ethnographically informed conference highlights their role and fights in inspiring Iran's Green Movement, Tunisia's Arab Spring, and India's repeal of Section 377 to decriminalize homosexuality. It is an opportunity to explore a different kind of feminism, and the impact of that feminism on women's lives outside Europe or America."
